

IDEAL FOR PROFESSIONAL OR COMMERCIAL KITCHENS

PREP-PRO Chopping Boards

Our premium Polyethylene, High Molecular Weight (HMW) chopping boards are strong, durable, long-lasting and intended for high frequency usage. Inherently foodsafe, hygienic, odourless, non-absorbent and non-toxic, they withstand the rigors of professional or commercial kitchens.

All our premium, pressed and planned chopping boards are created in-house in our UK production facility where our large stockholding allows for efficient service and quick turn-around times.
